

# KEY PRODUCT AND SAFETY CONSIDERATIONS

## KEY CERTIFICATIONS CONSIDERATIONS FROM WWW.AUTOLIFT.ORG

- A lift must be certified.
- Certification extends to options and accessories.
- Use of a non-certified options or accessories voids the certification of the lift.
- Approved accessories are required to be listed for use by model number on ALI's Directory of Certified Products. Accessories not found on the Directory are not approved for use.

**As important: Ask if an option (rolling jacks, forklift adaptors, etc.) is certified and adequately rated to lift the vehicle or perform the service intended or required for use (on the lift) with the specific accessory?**

**MOHAWK BELIEVES IN AN ADEQUATE CAPACITY RATING FOR ALL CERTIFIED OPTIONS.**

## EXTENDED FORK LENGTH

- Mohawk offers 22" long forks to raise BOTH rear tires and not over pressurize the outer tire.
- **Ask:** How much do long forks de-rate certain lift brands?
- **Ask:** If the truck was engineered to go down the road on 4 tires on the rear axle, shouldn't it be lifted by all 4 tires?

**The Baltimore Regional Cooperative Purchasing Committee Contract Saves Time, Money and Resources**

**Baltimore Regional Cooperative Purchasing Committee Contract #FL03-19 3/1/2019 - 2/28/2021 For Vehicle Lifts & Related Garage Equipment**

Consider the hard dollar costs of such activities as advertising as well as the soft dollar costs associated with time spent purchasing and legal staff in the procurement process. Once all of these factors are added, the TCP (Total Cost of Procurement) can range from under \$1000 for a simple commodity purchase to many thousands of dollars for more complex RFP's. The time involved in making an award for a more complicated procurement can exceed 12 months. The Baltimore Regional Cooperative Purchasing Committee Contract eliminates the bid process, saving time and taxpayer dollars. Every city, county, or state agency in Baltimore Regional Cooperative Purchasing Committee Contract can use this tool to purchase Mohawk Lifts & Hunter wheel service equipment.

## TWO POST LIFTS

### A-7

- 7,000 LB. CAPACITY
- ASYMMETRIC DESIGN
- CLEAR FLOOR WORK AREA
- FITS IN NARROW BAYS
- HD CARRIAGE BEARINGS
